

PARASOL

Cellular & Plantation Pleated Shades

Parasol Color Palettes Collection

Parasol cellular shades are an amazing combination of beauty, strength and style. Reliable, versatile lifting systems and innovative design options make it easy to find the shade that perfectly fits your needs.

Whether you want to softly diffuse the light or completely block it out, one of our four distinct degrees of opacity levels puts you in control. The duotone feature of our cellular fabrics let you enjoy the colors inside, while keeping neutral white to the street side.

Day/Nighter

Two shades in one option. Perfect for bedrooms and other areas where you desire both privacy and natural light.

Each cell in Parasol Cellular shades creates an insulation pocket of air to deflect summer heat and winter cold, making our cellular shades energy efficient. Our double and triple cellular shades provide extra layers of cells for enhanced energy efficiency and light control.

Enhance your child's safety with Accu-Rise™, our cordless operating system or AutoLift™, our battery operated lifting system.

Plantation Pleat pleated
shades by Lufayette*

Specially shapes allow you to cover every window in your home with Parasol cellular shades.

Cell Size

The beauty of Parasol cellular shades isn't just skin deep. Each is uniquely complemented by their practical and functional elements with crisp cellular pleats that last a lifetime in 3/8" or 3/4" cell sizes.

Plantation Pleated Shades

Gently diffuse the light with Plantation pleated shades in a variety of beautiful colors.

Care & Cleaning

Caring for your Parasol cellular or plantation pleated shades is simple and little cleaning is required. A light dusting with a feather duster or light vacuuming with a brush attachment is usually all that is necessary.

Top Down/Bottom up provides the flexibility to let light in from the top while maintaining privacy from below.
