Discoveries

Discover the unmatched selection of high quality custom verticals brought to you by Lafayette Interior Fashions and LouverDrape. The Discoveries Collection by Lafayette features a wide range of vinyl and fabric styles with colors, textures, and privacy levels to suit any decorating style and light control needs.

LouverDrape revolutionized the window coverings industry when they developed the world's first vertical blind in 1947 and the LouverDrape name is still synonymous with high quality vertical blinds and product innovation. Lafayette Interior Fashions has been manufacturing superior quality custom window coverings for over 50 years and continues to blend the latest technology with quality workmanship.

Enjoy your own amazing discoveries when beauty and function come together in just your style.

Discoveries

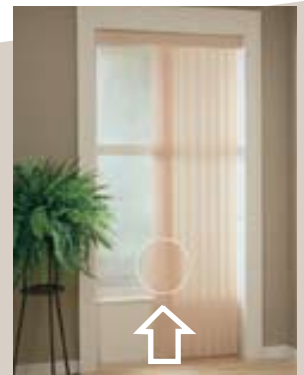

S-shaped louvers add a little curve for the soft look of a drapery with the functionality of vertical blinds.

Optional Autowand gives you one-control convenience. A twist of the wand lets you rotate your louvers to direct the light just where you like.

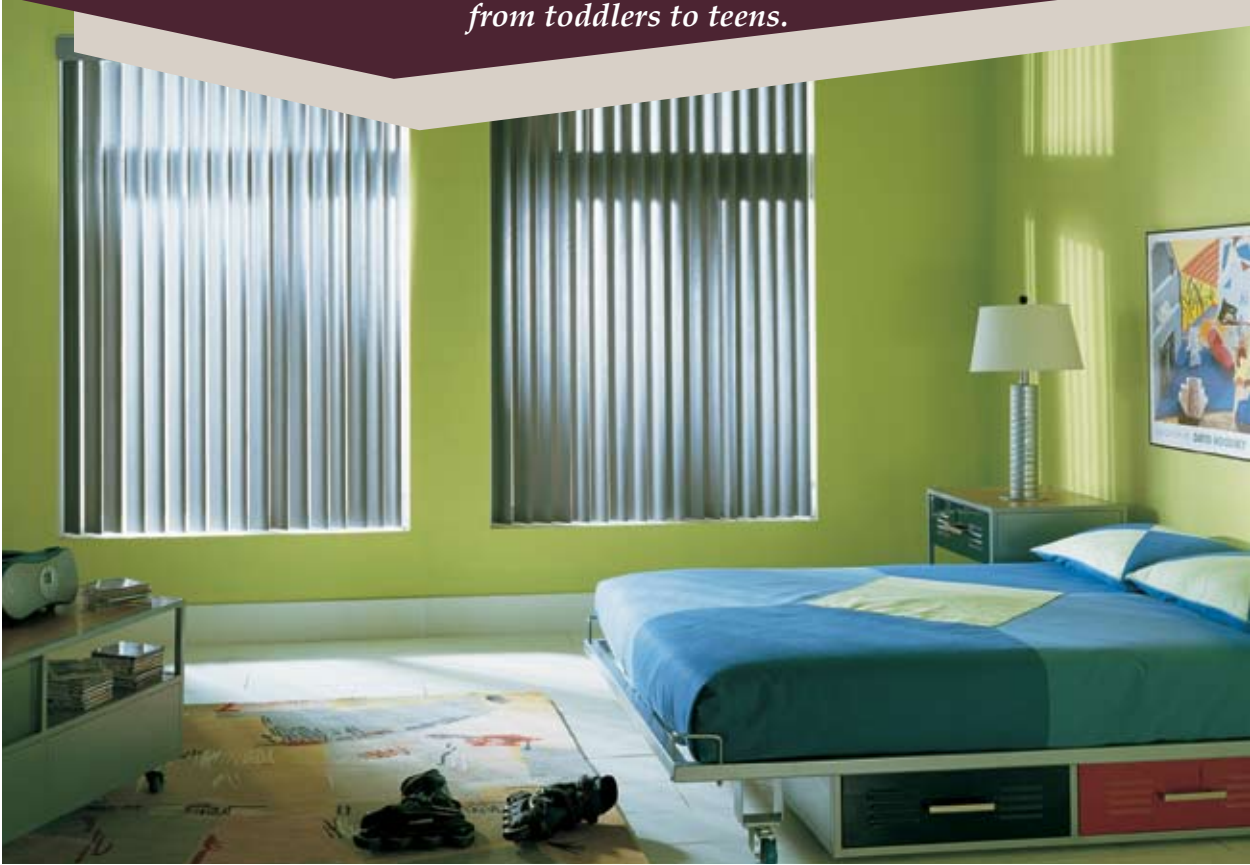

Backstacker

Traditional

Vertical blinds are naturally dustless and easy to clean vinyl makes them perfect for kids rooms from toddlers to teens.

Discoveries Verticals by Lafayette feature LouverDrape headrails which rotate a full 360 degrees for maximum light control and privacy.

Touchglide™ with Backstacker™ Headrail System

The exclusive Touchglide™ with Backstacker™ headrail system offers extremely easy operation and allows the vane group (stack) to remain stationary at the side of the window to maintain a neat appearance and to reduce the swaying of vanes both during and after traversing.

Discoveries

Subdue the light or take total control with selections ranging from translucent to opaque.
